

Move into the Future...

## Learn How Much More CaseWare Working Papers Can Do For Your Practice

### **CaseWare Working Papers Health Check**

**To ensure you realize the full potential of your Working Papers investment, our CaseWare certified professionals will perform a detailed health check. The health check identifies opportunities for improvement and includes a detailed management report outlining our recommendations.**

CaseWare Working Papers Health Check includes a maintenance and performance analysis of the year end work papers as well as work paper processes. The Health Check focuses on:

#### **WORK PAPER PREPARATION**

An analysis of the data gathering process, adherence to firm and industry standards and work paper assembly.

#### **FILE REVIEW**

A look at the file review process to see whether built in review functionality is utilized to increase efficiency and provide timely feedback to engagement teams.

#### **FINANCIAL STATEMENT ASSEMBLY**

A review of the financial statement documents and the associated assembly process to determine if an optimal solution is in place.

#### **ENGAGEMENT WRAP UP**

We analyze the archival and backup processes to ensure compliance with industry standards.

Resulting in:

A comprehensive report for partners outlining the findings of the above analysis. We identify all areas for improvement and make detailed recommendations on product utilization and performance optimization. We will recommend any additional tools and/or actions necessary to ensure your year end work paper process meets your needs.

## **UNLEASHING THE POTENTIAL OF YOUR YOUR WORKING PAPERS INVESTMENT AND IMPROVING YOUR PRACTICE IS EASY WITH THE RIGHT SUPPORT**
